Former Adjutant-General of Colo rado Says Incumbent Is Kinder-garten Cadet Unable to Handle

DENVER (Colo.) May 24.—[Exclusive Dispatch.] Former Adjt.—Gen. Sherman Bell, who achieved much fame during the Cripple Creek troubles of 1904, is again on the warpath, and today he threw down the gauntle to Adjt.—Gen. Bulkeley Wells, on account of the publication of an annual report, accusing him of allowing the National Guard to become demoralized and not keeping any financial accounts during his term of office. Bell dares Wells to accept any sort of challenge from a duel with pistols or swords to bare knuckles. He calls Wells a pinbead, kindergarten cadet, and alleges that Wells, as captain of the Telluride company, showed signs of cowardice regarding holding President Moyer of the Western Federation of Miners as a military prisoner.

NEW YORK, May 24.—B. F. Yoakum, chairman of the Rock Island and Frisco Executive Committee, returned to town yesterday from a trip through the Southwest. Mr. Yoakum said that business was progressing favorably. Regarding the damage to the crops, Mr. Yoakum said that in Oklahoma about half of the winter wheat crop had been destroyed, although this was probably offset by the increase in the corn crop. In other States the damage to the winter wheat was much less.

Champion Demands Guarantee Before Fighting.

Abe Attell, featherweight champion of the world, dispelled, for a time at least, the championship hopes of Kid Solomon in their fight last night before the Pacific Club, and won the dedid not smesh Solomon in the nose and back frim all around the ring. In fact, the fight could have been stopped after the first round and given to At-

singged from start, to finish, and made no kind of a showing. It was Rose-ben Tacing the head off Search Me at any old disiance, and the odds should have been 100 to 1 metead of 10 to 5. Making the weight of 122 half an hour before the fight must have weakened Solomon very much, for he appeared to have no life in him and his blows lacked steam. He backed away in every round, and what few rushes he made were smothered by Attell, who came right back and punched the Kid at will and kept his nose bleeding every round.

### Sale of Children's White Dresses Fourth Floor Today

### About One-Third Reduction

We want more people to get acquainted with our children's department on the fourth floor. We want more of our children's dresses to get out among the families of Los Angeleo—that's the only reason for this sale— the merchandise is all new, fresh and attractive and the regular prices are undoubtedly the lowest in town, when you consider quality; so you can readily understand that a third reduction means much. Today we offer five different numbers of children's white dresses from 4 to 14 years of age at prices that are remarkably low.

Wants to Know What Relation She Is to Her Several Children After

[Chicago Chronicle:] Mrs. Joseph Primm of Dreaden, Tenn., would like it very much if somebody would please

three children.
She is her own sister-in-law.
She has children who are first cousins of each other; she is her husband's the

eider. He had an older brother. The brother's wife as a real sister. The elder brother's wife as a real sister. The elder brother's died, leaving three sons—John, James and Jack. Then the mother died, Pity for the widow son turned to love and Joseph Primm married his dead brother's wife, thereby becoming stepfather to his own nephews.

THREE ORPHANS IN HIS CARE.

But this was the simplest turn in the stage of the stag

together, rambled in the woods hand in hand.

Ten years ago John Primm, the eldest of the three boys, thought it was time to marry. He knew all the pretty girls of the countryside, but pretty Mary Williams appealed to him most, though she seemed to favor his young est brother. But he paid ardent court and in due time he got the answer he wanted. They were married. And so young Mrs. Primm first came to live at the Primm homestead, lonig in need of some womanly care.

Thus began one of the most singular domestic situations ever recorded. It was not a situation that became unusual by reason of conditions outside the paie of social order. Everything that happened "just happened," quite within the legal and orderly cause of matrimonial events. Mrs. Primm was and is a home-loving, faithful wifesensitive to indignity, but patiently persistent in pursuit of what she believes to be right.

DR. TALKS OF FOOD.

Pres. of Board of Health.

"What shall I eat?" is the daily inquiry the physician is met with. I do not hesitate to say that in my indement a large percentage of disease is caused by poorly-selected and improperly-prepared food. My personal experience with the fully-cooked food, known as Grape-Nuts, enables no to speak freely of its merits.

"From overwork, I suffered several years with mainutrition, palpitation of the heart, and loss of sleep. Last summer I was led to experiment personally with the new food, which I used in conjunction with good rich cow's milk. In a short time after I commenced its use, the disagreeable symptoms disappeared, my heart's action became steady and normal, the functions of the stomach were properly carried out and I again slept as soundly and as well as in my youth. "I look mpon Grape-Nuts as a perfect food, and no one can gainsay but that it has a most prominent place in a rational, scientific system of feeding. Any one who uses this food will soon be convinced of the soundness of the principle upon which it is manufactured, and may thereby know the facts as to its true worth." It is true that the act under which it was sought to annex this territory provides the manner of giving notice of the election, and it is not disputed that the notice was, in fact, given as in that act provided. That act, however, does not provide how the election shall be called, and it would scarcely be contended that the election could be legally called in such manner as the City Council to call this election, but it does not prescribe the manner in which this power shall be exercised. POLICEMAN SUES. Edwin W. Carpenter, a police sergeant, yesterday filed suit in the Superior Court against the Los Angeles Railway Company, asking \$25,854.25 as damages for personal injuries. The complaint states that the plaintiff tried to get on a car at West Jefferson street and Wesley avenue, on December 8, 1966; that the car did not come to a full and sufficient stop, but that the motorman turned on the power. Carpenter was thrown violently to the ground, it is alleged, sustaining a fracture of the right leg, dislocation of the right ankle, fracture of the left leg and of three ribs.

### What is Castoria.

CASTORIA is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. It destroys Worms and allays Feverishness. It cures Diarrhoa and Wind Colic. It relieves Teething Troubles, cures Constipation and Flatulency. It assimilates the Food, regulates the Stomach and Bowels, giving healthy and natural sleep. The children's Panacea-The

# The Building Era Has Come

Lumber Prices Go Down-New Homes Going Up

Did you know that Los Angeles was growing faster than ever?

Did you know that low colonist rates for the summer will bring the greatest influx of new families in all the years of railroading?

The need is for more ranch hands, more workmen, more people to keep pace with the growth of industry.

This means more homes, more business for every one. Whether you agree or not, the fact cannot be disputed that more new homes are planned

for Los Angeles than ever before. Ask your banker about it. A large percentage of the better class homes are concentrated at Beverly Hills-a district that is "ready-to-live-on," where prices are lower than intrinsic values. A district for

If you wish a home in a neighborhood where no single comfort, luxury, convenience or attraction is lacking, you will be interested-enthusiastic-with Beverly Hills.

There is nothing to offend the discriminating sense at Beverly Hills. It's solid. It's refined. It's quietly rich-sumptuous but not gaudy. So many new features, so many beautiful homes already on the way, a trip of inspection

will be full of interest. Call at office for complimentary tickets. Representatives with teams may be seen at office at Beverly.

PASADENA, May 24.—The fate of PARADENA. May 34.—The late of the Carmelita Garden proposition for a public playground for the Crown City is now in the hands of the public. Yesterday stock in the corporation, which is virtually a public amusement club, was placed on the market by the board rectors. Indications are that the ne is to be carried through with

public nature was ever launched in this city and, if plans are carried out, Pasadena will be second to no western municipality in outdoor attractions for her people. It is expected that the desired sum will be subscribed within heart few days and that work will begin at once on the big tract that has been bought for the purpose on West Colorado street.

CLASSY DOG SHOW.

The Pasadena Kennel Club is making pretentious preparations for its first annual dog show, which is to be held in this city on June 6. 7 and 8. The big horse show jent is to be utilized for thoroughbreds of another kind on the glot of ground just north of the Masonic Temple on Fair Oaks avenue. Society is entering into the spirit of the undertaking and the commonness of commercialism, so often a part of dog shows, will find no place here. Froeman Ford, Charles King, R. C. Halsted and Kingsley Stevens are the bench show committee having the exhibition in charge. Sixty classes will be shown and more than 250 dogs will "sit up and look pleasant."

The specialty of the show will be Boston terriers, forty of that breed being shown. Miss Jennie Crocker of the Union Pacific office in Los Angeles will show three Boston terriers valued at \$5000 and competition between them will be strong. John Bradshaw of Los Angeles will judge all breeds. CLASSY DOG SHOW.

President J. B. Heartwell of the greater First National Bank entertained the officers, directors and employés of the merged institution at a banquet at Hotel Julian, last night. When the bank was organized, seven years ago, Mr. Heartwell and his son, Charles, were atle to look after the business, the son doing the bookkeeping. Today thirty-four persons are required to handle the bank's affairs. The funeral scruices of Miss Caroline Harnett, the victim of an attempt to use coal oil on a fire, will be held Saturday afternoon at 2 o'clock, at St. Luke's Church. A delegation of the High School alumni will attend. The Walker Real Estate Company, one of the oldest firms in the city, will be succeeded June 1 by the Walker-er-Williams Realty Company. It will be a close corporation, with ex-City Marshal T. W. Williams as president, M. B. Iryine, secretary, and C. J. Walker, treasurer.

"No. no." mused the Mayor, "I change my figures a little on this election almost every day, anyhow, and I might make the vote 30,000

That's what has made The Times Estimate Coupon a big hit. Everybody has a different estimate on the \$23,000,000 bond elec-

"My figures seem large, when you think of it," said Mayor Harper, for there never have been 18,000 votes cast in any bond election in Los Angeles before. You must realize that this is just one clean-cut

issue-'Yes' or 'No'-with no personalities or outside questions.' The public interest in the vote, on the third day that The Times Estimate Coupon was published, brought a perfect flood of answers

from the calculators. Three hundred dollars in cash awards will be made for the correct estimates, or those nearest to correct.

One hundred dollars will be paid for the best estimate of the total number of votes cast, both "yes" and "no." And \$100 also will be

paid for the best estimate on the number of ballots cast FOR the The thousands of coupons received yesterday covered a wide

The vast majority-almost unanimous-showed the general belief

that the bonds are sure winners. One man estimated that only 150 voters would vote "no."

Some estimated that the total vote will be over 30,000, which is greater than at general elections, with living personalities and political issues to stir the electorate. The Estimate Coupons certainly are interesting reading, for they

express the deep, inward belief of the writers. Anyone and everyone may fill in the Estimate Coupons and send them in for the \$100 awards. If one person should estimate both totals correctly, or most nearly

so, he or she will be paid \$200. The register entitles 53,500 men to vote. The largest number of votes ever previously cast at a special election was 23,876.

The initial Owens River bond election, on September 7, 1905, when \$1,500,000 was voted, called out a total vote of 11,542, with 10,787 ballots "yes," and 755 ballots "no."

The most recent bond election, May 17, 1906, when six separate issues were submitted, brought out a total vote of only 6667. Water works and reservoir bonds submitted April 15, 1904, called out barely

Make your estimate TODAY, and EVERY DAY until the election. If there is a tie, and more than one estimate is correct, or most nearly correct, the one first received will secure the cash award.

The pigeons of the Police Station must go.

Such is the verdict of police officials and judges of the city courts who have found that the birds, once the pride of the station, have become nuisances. A slaughter of the gentile denizens of the eaves and rafters of the building will take place within the next few days.

When the building was erected, eleven years or more ago, the pigeons took kindly to it. It offered them home and shelter just as the grim, iron-

"NOT GUILTY" AGAIN.

A verdict of "not guilty" was promptly returned by the jury in the trial of J. P. Storm, who was accused of having embezsled \$15,316 while Treasurer of Tavapai county. The trial was the third to which Storm has been subjected. In the first, the jury failed to agree, and in the second the verdict also was "not guilty." In November, 1904, Storm was found gagged and tied within his vault, from which the sum specified was missing. Various irregularities were proven against him in his methods of handling the county's cash, but there has been inability to fasten upon him the charge that he was in collusion with the person who tied him up, in order to plead robbery and thus escape the consequences of criminal action. His bondsmen have compromised with the county and have paid in the larger part of the missing sum.

Engineer Plans to Run Trains

A French engineer named Berlier has of a tunnel under the Strait of Gib-

M. Berlier believes that the construc-tion of a submarine tunnel from Va-queros Bay, in Spain, to Tangier, in Morocco, is perfectly feasible, as the depth of the sea in this vicinity does not exceed 400 meters (1200 feet.) The submarine length of the tunnel would be 32 kilometers (over twenty-five

feet per 1900.

It is proposed to establish rallway connection in Europe by means of a line following the Spanish coast and passing through Tarifa and Algeciras. In Morocca a line would be constructed from Tangier to Centa, Telucin and Remours, connecting with the Algerian railway at Tiemcen.

M. Berlier is convinced that in building the tunnel sufficiently wide for two tracks no greater obstacles will be encountered than those which have been successfully overcome at Mount Cenis, the St. Gothard and the Simplon.
